Portfolio: my-portfolio-ruby-sigma-45hja9i8df.vercel.app

PROFESSIONAL SUMMARY

Third-year Software Engineering undergraduate with a strong academic record (GPA: 3.95) and practical experience in full-stack application development through university projects. Skilled in frontend and backend technologies, databases and collaborative development environments. Also experienced in administrative operations, team coordination and organisational activities. Keen to apply technical knowledge, strengthen software engineering skills and contribute to real-world technology solutions as a Software Engineering Intern.

EDUCATION

BSc (Hons) in Software Engineering

NSBM Green University | Current Academic Year: Year 3 | Expected Graduation: 2028

Current GPA: 3.95

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Dart
Web Development: HTML, CSS, Node.js
Mobile Development: Flutter
Databases & Backend: Firebase, SQL Server
Development Tools: Git, GitHub, Docker, VS Code, IntelliJ IDEA, Postman
Design & Testing: Figma, UI/UX Design, Software Testing, Debugging
Additional Familiarity: Python, React (academic study; limited project use)

PROJECTS

PAWLY – Animal Welfare Mobile Application

Technologies: Flutter, Dart, Firebase, Git, GitHub | **GitHub:** github.com/cheshani-dananjana/PAWLY-Mobile-App

- Collaborated with a seven-member team to build a mobile application supporting animal welfare, stray animal assistance and pet adoption.
- Contributed to application design and to frontend and backend development using Flutter and Firebase.
- Followed a feature-first architecture to keep the codebase structured and maintainable.

UniMateLK – Roommate Matching Platform

Technologies: Java, Spring Boot, MySQL, HTML, CSS, JavaScript | **GitHub:** github.com/kavisara-samarakoon/unimatelk

- Contributed to the development of a web-based roommate matching platform.
- Worked on frontend and backend development, connecting user interface components to backend services.

University ERP System

Technologies: HTML, CSS, JavaScript, Node.js, Express, SQL Server | **GitHub:** github.com/unnadivibhavi-dot/University---ERP---System

- Collaborated on a university management system, contributing to both frontend and backend components.
- Participated in implementing system functionality and database integration.

PROFESSIONAL EXPERIENCE

Corporate Secretary – Chart Consultants

8 months (following Advanced Level studies)

- Managed administrative documentation, records and confidential company information.
- Assisted with employee leave management and HR administration using BetterHR.
- Coordinated company events and supported organisational activities.
- Handled cheque-related administrative tasks and documentation.
- Supported daily administrative operations and internal coordination.
- **Transferable skills:** communication, organisation, documentation, responsibility and teamwork.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Treasurer** – NFORCE Club, NSBM Green University
- **Standing Committee Secretary Team Member** – IEEE Student Branch, NSBM
